PROJECTS

ThetaChart — thetachart.com 2025 – Present
Options Trading Journal and Analytics Platform

- Developing a web-based journal for recording options trades, tracking performance, and reviewing trading decisions.
- Designed features for trade details, profit-and-loss tracking, notes, and performance analytics using FastAPI and pandas.

UEFN Game Development 2023 – Present
UEFN, Unreal Engine 5

- Designed, tested, and published multiplayer game experiences and simulations; published islands have generated 463,500+ minutes of player engagement.
- Built gameplay systems, environments, and progression features; debugged and iterated based on player feedback and telemetry.

EXPERIENCE

Walmart — Tulsa, OK 2022 – 2023
Online Personal Shopper

- Selected and prepared customer orders accurately for pickup and delivery.
- Checked product quality, handled substitutions, and organized completed orders.
- Worked with team members to meet deadlines in a fast-paced retail environment.

ADDITIONAL EXPERIENCE

Independent Options Trading and Market Analysis 2021 – Present

- Researched stocks and options before making personal trading decisions.
- Tracked entries, exits, gains, and losses to review performance.
- Used position sizing and basic risk management to limit losses.
